# Meta Mansions
## *Whitelist Guide*

Our whitelist program ensures we are assigning Whitelist spots to our earliest, most supportive, and most active community members.
**Keep in mind we have no whitelist cap for any of the rounds, so the more you engage and the more KEYS you hold, the higher odds you have of becoming a Meta Mansion owner.**

Our team will whitelist your address directly from Etherscan. If you would still like to get your role, please apply through the #verify-loyalkey channel.

NOTE

You can be chosen for the whitelist without having the requirements met role! We handpick active and helpful Meta Mansions and KEYS community members from all channels and assign them whitelist roles regularly.

DO NOT open a ticket to ask for a whitelist, if you do it will only hurt your chances of getting whitelisted.
